A report has been made by the railroad commissioners in the Bethel case where men by the name of Lynch, Shay and Smith were killed by a freight train some six weeks ago. The railroad has been wholly exonerated for the deed and no blame is attached to the engineer. The night was dark and an intense fog obscured the track so that the engineer was able to see but a short distance ahead. The attorneys for the railroad claim the men who were killed were intoxicated and were trespassing on the railroad at the time and thus were responsible for their own death.

## HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

"Destroy the cause—you remove the effect."

Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich.
